

CHARACTER DESIGN · VITILIGO

The Vitiligos.

Stunning, natural men with vitiligo — the fastest way to make an AI character that stops the scroll, because the face is distinctive, not generic. Six everyday scenes, real untouched outputs from three image models, each rendering its own man with vitiligo — so you see exactly what to expect.

ChatGPT · Gemini · Grok

Beautiful men with vitiligo. Every model. Every scene.

These prompts create **striking, natural men with vitiligo** — proof that a memorable AI character comes from a **distinctive** face, not a prettier one. Each model renders its own man: same prompt, different person, all of them real. The identity block sits below every prompt; keep it and vary only the scene. Every output shown is untouched, badged with the model that made it. At the end you'll find a fill-in template to design your own unique character with vitiligo — or any distinctive feature.

THE 6 SCENES

01	Bedroom Window Portrait	<i>the hero, 3 models</i>
02	Kitchen Pour-Over	<i>morning window</i>
03	Golden-Hour Car	<i>warm side light</i>
04	Gym Mirror	<i>honest fluorescent</i>
05	Sofa, One Lamp	<i>single warm source</i>
06	Street, A Friend Took It	<i>overcast candid</i>

THE MODELS USED IN THIS PACK

 Grok Imagine 1.5	Grok • Imagine 1.5	The most convincing phone-camera realism and the truest skin — it renders vitiligo and hard window light best. The hero portrait is Grok.
 Nano Banana 2	Gemini • Nano Banana 2	The most natural, believable vitiligo edges and the calmest, most human expressions across scenes.
 GPT Image 2	ChatGPT • GPT Image 2	Best at scene detail and props (the pour-over, the gym, the book on the sofa); slightly softer skin.

9:16 & 4:5

NEGATIVES INCLUDED

TEMPLATE INCLUDED

SCENE 01

Bedroom Window Portrait

The portrait that started the pack — three models, three takes on one idea.

REGISTER

camera roll, register 0 — the 4pm light hit the wall and he took it himself

IDENTITY

man in his mid-20s, warm brown skin with soft natural vitiligo patches across one cheek and the side of the neck, close-shaved head, calm direct gaze, a small silver hoop earring; realistic irregular vitiligo edges, preserve natural asymmetry, no beautification drift

WARDROBE

plain white tee, slightly stretched collar

ACTION

arm's-length selfie, not smiling, just looking into the lens

ENVIRONMENT

plain bedroom: edge of an unmade bed, a trailing plant on the sill, a phone charger cable

LIGHT

one window at 4pm from the side, a hard rectangle of warm sun across half his face, rest of the room in soft ambient shadow

CAMERA

24mm phone selfie, deep focus, slight near-hand foreshortening, 4:5

GRADE

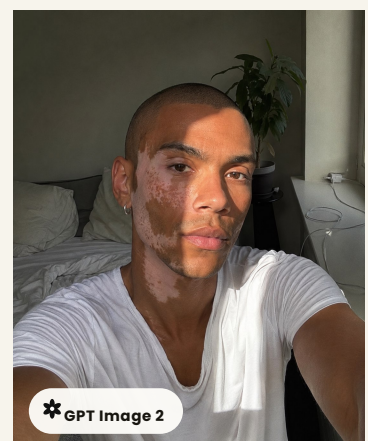

neutral phone HDR, lifted shadows, no grading

NEGATIVE

studio lighting, cinematic grading, beauty filter, skin smoothing, evening out the skin, symmetrical vitiligo, removing the vitiligo, plastic skin, glowing skin, symmetrical face, magazine polish, staged tidiness, 8k, masterpiece, bad anatomy, extra fingers, watermark, text, logo, 3D render, cartoon

DIRECTOR'S NOTE

Grok is the hero: the hard 4pm rectangle and the real skin are unmatched. Gemini gives the most believable vitiligo edges; GPT softens them slightly. Same prompt, three different men.

SCENE 02

Kitchen Pour-Over

Morning window, steam in the beam.

REGISTER

camera roll, register 0 — making coffee, caught the morning light

IDENTITY

man in his mid-20s, warm brown skin with soft natural vitiligo patches across one cheek and the side of the neck, close-shaved head, calm direct gaze, a small silver hoop earring; realistic irregular vitiligo edges, preserve natural asymmetry, no beautification drift

WARDROBE

grey marl tee, slightly stretched collar

ACTION

arm's-length selfie mid-pour, kettle tilted over a pour-over cone, glancing at the lens

ENVIRONMENT

small kitchen: gooseneck kettle, a folded bag of beans, a scale, a mug, a tea towel on the oven handle

LIGHT

one window at 8am from the left, a hard warm rectangle of sun across the counter and half his face, steam catching the beam

CAMERA

24mm phone selfie, deep focus, near-hand foreshortening, 4:5

GRADE

neutral phone HDR, lifted shadows, no grading

NEGATIVE

studio lighting, cinematic grading, beauty filter, skin smoothing, evening out the skin, symmetrical vitiligo, removing the vitiligo, plastic skin, glowing skin, symmetrical face, magazine polish, staged tidiness, 8k, masterpiece, bad anatomy, extra fingers, watermark, text, logo, 3D render, cartoon

DIRECTOR'S NOTE

The steam catching the window light is the whole shot. GPT nails the pour-over gear; Gemini gives the most natural skin. Keep 'steam catching the beam'.

GPT Image 2

Nano Banana 2

SCENE 03

Golden-Hour Car

Warm side light through the passenger window.

REGISTER

camera roll, register 0 — passenger seat on a road trip, sun going down

IDENTITY

man in his mid-20s, warm brown skin with soft natural vitiligo patches across one cheek and the side of the neck, close-shaved head, calm direct gaze, a small silver hoop earring; realistic irregular vitiligo edges, preserve natural asymmetry, no beautification drift

WARDROBE

denim jacket over a white tee, seatbelt across

ACTION

arm's-length selfie, head resting back on the seat, faint content smile, window down

ENVIRONMENT

car interior: side mirror, a phone cable, a bottle in the door pocket, fields racing past the open window

LIGHT

low golden-hour sun through the passenger window, warm streak across his face, long soft shadows, slight lens flare at the edge

CAMERA

24mm phone selfie, deep focus, 4:5

GRADE

neutral phone HDR, lifted shadows, no grading

NEGATIVE

studio lighting, cinematic grading, beauty filter, skin smoothing, evening out the skin, symmetrical vitiligo, removing the vitiligo, plastic skin, glowing skin, symmetrical face, magazine polish, staged tidiness, 8k, masterpiece, bad anatomy, extra fingers, watermark, text, logo, 3D render, cartoon

DIRECTOR'S NOTE

Golden hour from the side is the most forgiving light in the pack — the warm streak across the vitiligo looks intentional. Gemini's flare and skin edge it here.

GPT Image 2

Nano Banana 2

SCENE 04

Gym Mirror

Post-workout, honest fluorescent, phone visible.

REGISTER

camera roll, register 0 — quick mirror selfie after training

IDENTITY

man in his mid-20s, warm brown skin with soft natural vitiligo patches across one cheek and the side of the neck, close-shaved head, calm direct gaze, a small silver hoop earring; realistic irregular vitiligo edges, preserve natural asymmetry, no beautification drift

WARDROBE

black sleeveless training top, a towel over one shoulder, sweat sheen at the collarbone

ACTION

gym mirror selfie, phone at chest height and visible, free hand on the hip, breath-caught look at the screen

ENVIRONMENT

gym: dumbbell rack behind, chalk marks, someone blurred mid-set in the mirror, a water bottle on the bench

LIGHT

flat overhead gym fluorescents, slightly green, even and honest, small shadow under the brow

CAMERA

24mm phone in mirror, deep focus, fingerprints on the glass, accurate optical orientation, text mirrored, 9:16

GRADE

neutral phone HDR, lifted shadows, no grading

NEGATIVE

studio lighting, cinematic grading, beauty filter, skin smoothing, evening out the skin, symmetrical vitiligo, removing the vitiligo, plastic skin, glowing skin, symmetrical face, magazine polish, staged tidiness, 8k, masterpiece, bad anatomy, extra fingers, watermark, text, logo, 3D render, cartoon, clean spotless mirror, unmirrored text

DIRECTOR'S NOTE

The ugly green fluorescent is the realism — do NOT prettify it. Keep the phone visible and the text mirrored. Gemini renders the most natural skin under harsh top light.

SCENE 05

Sofa, One Lamp

A single warm source, everything else to shadow.

REGISTER

camera roll, register 0 — quiet night in, one lamp on

IDENTITY

man in his mid-20s, warm brown skin with soft natural vitiligo patches across one cheek and the side of the neck, close-shaved head, calm direct gaze, a small silver hoop earring; realistic irregular vitiligo edges, preserve natural asymmetry, no beautification drift

WARDROBE

soft hoodie, sleeves pushed up, a book resting on his chest

ACTION

arm's-length selfie half-lying on the sofa, sleepy calm look

ENVIRONMENT

living room at night: a warm lamp behind the sofa, a throw blanket, a mug on the coffee table, a paused TV glow low in the background

LIGHT

one warm table lamp as the only real source — golden bloom on one side of his face, the rest falling to soft shadow

CAMERA

24mm phone selfie, deep focus, some low-light grain, 4:5

GRADE

neutral phone HDR, lifted shadows, no grading

NEGATIVE

studio lighting, cinematic grading, beauty filter, skin smoothing, evening out the skin, symmetrical vitiligo, removing the vitiligo, plastic skin, glowing skin, symmetrical face, magazine polish, staged tidiness, 8k, masterpiece, bad anatomy, extra fingers, watermark, text, logo, 3D render, cartoon, pitch black darkness

DIRECTOR'S NOTE

One lamp as the only light is advanced camera-roll — expect grain, and let it stay. GPT adds the lovely book-and-TV-glow storytelling; Gemini keeps the skin most believable.

SCENE 06

Street, A Friend Took It

Overcast, third-person, caught mid-word.

REGISTER

camera roll, register 0 — a friend snapped him mid-walk, not posed

IDENTITY

man in his mid-20s, warm brown skin with soft natural vitiligo patches across one cheek and the side of the neck, close-shaved head, calm direct gaze, a small silver hoop earring; realistic irregular vitiligo edges, preserve natural asymmetry, no beautification drift

WARDROBE

beige overshirt open over a tee, canvas tote on the shoulder

ACTION

walking, half-turned back to the friend mid-sentence, one hand gesturing

ENVIRONMENT

ordinary city street: a bus stop, a delivery van, a café A-frame, blurred passersby

LIGHT

flat overcast daylight, soft and even, no strong shadows, honest grey

CAMERA

24mm phone, third-person (friend's hand), slightly off-center, mild motion, 4:5

GRADE

neutral phone HDR, lifted shadows, no grading

NEGATIVE

studio lighting, cinematic grading, beauty filter, skin smoothing, evening out the skin, symmetrical vitiligo, removing the vitiligo, plastic skin, glowing skin, symmetrical face, magazine polish, staged tidiness, 8k, masterpiece, bad anatomy, extra fingers, watermark, text, logo, 3D render, cartoon

DIRECTOR'S NOTE

Breaking to third-person (a friend's hand) is what makes a character feel real — not every frame is a selfie. Flat overcast light keeps it honest. Gemini's motion reads most candid.

GPT Image 2

Nano Banana 2

Design your own character.

This pack works because of **one distinctive, un-generic feature**. Replace the **[highlighted]** parts below to design any character, then reuse that identity block in every scene. The golden rule: pick ONE feature most people would "correct" — vitiligo, a birthmark, a scar, heavy freckles — and never correct it.

IDENTITY — REUSE IN EVERY SCENE

"**[AGE]** -year-old **[gender]**, **[SKIN TONE]** skin with **[ONE DISTINCTIVE FEATURE — vitiligo / a birthmark / a scar / heavy freckles / a gap]** **[described precisely]**, **[HAIR]**, **[EXPRESSION]**, **[ONE small accessory]**; realistic irregular edges, preserve natural asymmetry, no beautification drift"

THE FOUR RULES THAT MAKE THIS WORK

- 1 • **One distinctive feature, described precisely.** "Soft vitiligo across one cheek, irregular natural edges" — specificity is what makes it look real.
- 2 • **Reuse the identity block, vary only the scene.** Keep the feature description; change light, room and action freely.
- 3 • **The light is the realism.** One honest source per scene — a 4pm window, gym fluorescents, one lamp. Never "studio".
- 4 • **Not every frame is a selfie.** A friend-took-it street shot sells the character as a real person.

More unique characters, more scenes —
